- Chocolate Chip DSP - 1 x 11
- Good Morning Sunshine DSP - 3/8 x 11
- Riding Hood Red Striped Grosgrain – 12 inches

Instructions to Create the Giraffe:

1. Using the ¼, 1/8 and 1/16 (or paper piercer) hole punches, punch holes in the Summer Sun Cardstock for the neck, body and legs. This will then expose the Ruby Red when glued together.
2. Using a 2 Way Glue Pen, glue the Summer Sun layers onto the Ruby Red layers and attach together.
3. To create the feet, cut the Chocolate Chip Word Windows into smaller pieces using the rounded ends and glue on legs.

4. Glue on the tail.
5. To create the head, feed the already punched heart into the punch from the top of the punch down. Place the rounded portion of the one side of the heart in the rounded portion and punch so you end up with an oval. Rotate the heart around until you can create a nice oval. Repeat with the Blush Blossom for the Muzzle.
6. Using the Boho Punched flower, cut out an ear from a petal.
7. Use a sliver of Summer Sun to make the horns and attach the ¼ inch circles.
8. Draw on the face.
9. Assemble the box by folding on the crease lines and applying adhesive on the tab.
10. Wrap the DSP around the box.
11. Fill box with treats and seal with the ribbon.
